Dear Hiring Manager,

I am writing to express my interest in the **Lead .NET Full Stack Developer / Technical Lead** position. With **10+ years of experience** in designing and delivering **scalable, secure, and high-performance enterprise applications**, I bring strong expertise in both **full-stack development and technical leadership**.

Most recently, I worked with Abu Dhabi Agriculture and Food Safety Authority (ADAFSA), where I led the design and development of Whole-of-Government services using **.NET Core, Microservices architecture, Angular, and REST APIs**. My responsibilities included **defining system architecture, implementing secure authentication (JWT/MSAL)**, integrating **external SOA services**, and ensuring **robust logging, monitoring, and performance optimization**.

In addition to hands-on development, I have **3+ years of experience in technical leadership**, including **mentoring teams, conducting code reviews, and collaborating with stakeholders** to deliver complex government solutions. I have also been recognized with **performance awards** for my contributions to large-scale platforms such as **TAMM and DMT (Abu Dhabi Government Services)**.

I am **currently available** and actively seeking new opportunities where I can contribute to building **scalable systems**, drive **technical excellence**, and take ownership of **end-to-end solution delivery**. I am confident that my experience aligns well with your requirements and that I can add immediate value to your team.

I would welcome the opportunity to discuss my profile further.

Thank you for your time and consideration.

Sincerely

Gangadhar Karatlapally
Lead .NET Full Stack Developer
